Version

Release notes for major release 2025-07

24.1 Major release Remove timestamp from API requests.

Scope:

- API: Milk-delivery, milk-quality, UBL invoice & invoice

Details

- Date range: remove timestamp in API.
- Modified since: Remove milliseconds.

Both Qlip & FrieslandCampina

As-is:

- Date range
 - start-date-time=2024-04-07T00:00:00.000Z
 - end-date-time=2024-04-11T23:59:59.000Z
- Modified-since
 - modified-since=2022-04-03T00:00:00.000Z

To-be:

- Date range
 - start-date-time=2024-04-07
 - end-date-time=2024-04-11
- Modified-since
 - modified-since=2022-04-03T00:00:00Z

Impact

This is probably a small but breaking change

24.2 Major release Difference in invoice data.

Scope:

- Payload: milk-invoice

Details

- All dateTime data elements that occur in the milk-invoice a date type (without the time stamp).

FrieslandCampina

As is:

- "invoiceDate~~Time~~": "2022-03-31",

To be:

- "invoiceDate": "2022-03-31",

Qlip

As is:

- "invoiceDate~~Time~~": "2025-02-11T00:00:00.000",
- "invoicePeriodStartDate": "2025-01-01T00:00:00.000",
- "invoicePeriodEndDate": "2025-01-31T00:00:00.000",

To be:

- "invoiceDate": "2025-02-11",
- "invoicePeriodStartDate": "2025-01-01",
- "invoicePeriodEndDate": "2025-01-31",

Impact

This is probably a small but breaking change

24.3 Major release Differences Qlip versus RFC json messages

Scope

- milk-invoice

Details

- Difference in the payload, for details see below.

FrieslandCampina: invoiceLine.vatPercentage: change string-type in double-type

As is:

- "vatPercentage": "0.000",

To be

- "vatPercentage": 0.00, (invoiceLine.vatPercentage: change string-type in double-type)
- Note: JSON standard behavior is that if the 2nd char behind the comma is a 0 (zero) it will be discarded. In this example it will be "vatPercentage": 0.0

Qlip: Delivery.milkTemperature: unitCode change in unitOfMeasure & Add meaningful Deletion indicator (was always "False")

As is:

- "milkTemperature": {"value": 3.7, "unitCode": "CEL"}

To be:

- "milkTemperature": {"value": 3.7, "unitOfMeasure": "CEL"}
- "milkDeliveryDelInd", (Add meaningful Deletion indicator)
- "quantityCharacteristicDelInd" (Add meaningful Deletion indicator)
- "milkQualityDelInd", (Add meaningful Deletion indicator)
- "qualityCharacteristicDelInd" (Add meaningful Deletion indicator)

Impact

This is probably a small but breaking change

24.4 Major release ModifiedSince invoice

Scope

- Milk-invoice,
- UBL-invoice,
- milk-delivery,
- milk-quality

Details

- Both Qlip and FrieslandCampina: Realize modified since.
- Note: FrieslandCampina will realize modified since for both invoices any time soon after the major release
- Note: It has been decided to de-scope the webhook for invoices

FrieslandCampina:

As-is

- Modified since not available for both invoices

To-be

- Realize modified since for both invoices
- modified-since=2022-04-03T00:00:00Z

Qlip:

As-is

- Modified since not available for document types in scope

To-be

- Realize modified since for document types in scope
- modified-since=2022-04-03T00:00:00Z

Impact

This is NOT a breaking change: You can choose not to use it.

24.5 Major release, harmonize invoice payload, remove deliveries.

Scope

- milk-invoice
- UBL-invoice

Details

- Remove delivery details of the payload.
- Note: FrieslandCampina will realize the adjusted payload for both invoices any time soon after the major release

FrieslandCampina

As-is

- Deliveries included in the invoice payload(s)
- Removed fields
-
- ...
- .. (wait for Qlip input)

To-be

- Harmonize payload with Qlip

Qlip

As-is

- Deliveries are already excluded in the invoices

To-be

- No change

Impact

If this is breaking or not is hard to predict, it depends how the code of the data requester deals with missing data.

24.6 Major release Kvk-ubn

Scope

- Milk-invoice
- UBL-invoice
- Milk-delivery
- Milk-quality
- Meadow-grazing

Details

- Only UBN will be supported in the API, an error message will be returned when the API has another location-schema
- Data consumers are advised to only use request with UBN.
- Note: FrieslandCampina will realize the “UBN-only” any time soon after the major release
- Note: UBN restriction is not a requirement by FrieslandCampina

FrieslandCampina:

As-is

- Supporting both KVK and UBN

To-be

- location-scheme = UBN
- Realize logic to support UBN only
- return an error message when requested with another location-schema

Qlip:

As-is

- Already supporting UBN only

To-be

- No change

Impact

Not – breaking , assuming that no one is requesting on KVK

24.X Double end-points

Scope

- Milk-invoice,
- UBL-invoice,
- milk-delivery,
- milk-quality,
- factory means,
- meadow grazing

Scope

- The current version and new version will be available for a limited period of time (4 months) next to each other.
- To enable data-consumers to implement and test

Details

FrieslandCampina:

As-is

- Current end-point (details for JoinData only)

To-be

- Realize new end-points (details for JoinData only)

Qlip

As-is

- Current end-point (details for JoinData only)

To-be

- Realize new end-points (details for JoinData only)

JoinData:

- Still under discussion: this will be communicated as soon as it is decided upon.

Impact

This will become a breaking change as soon as the existing end-point is decommissioned.
